## Risk Policy Statement and Management

### Definition of Risk Management

- Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies.
- Risk management is the process by which risks are identified, evaluated and controlled.

### Risk Policy Statement

- Eyam Parish Council recognises its responsibility to manage risks effectively to protect its Councillors, staff, assets, liabilities and community against potential losses.
- Eyam Parish Council is aware that some risks can never be eliminated fully and will ensure a risk management strategy is in place to ensure all risks are identified and properly assessed.

### Risk Management

- Any risks identified are to be reported to the Clerk at the earliest opportunity so that action can be taken to mitigate or remove the risk.
- Risks reported to the Clerk are to be accounted for in the Risk Register, if necessary.
- Eyam Parish Council will assess each risk to mitigate or remove to whatever level is practically possible. This will be done in a cost-effective manner and using all resources available.
- Each risk identified is to be recorded in the Eyam Parish Council Risk Assessment (attached to this document) and be assessed in terms of:
  - a) its impact
  - b) who is at risk
  - c) its risk rating
  - d) measures to be taken control it
  - e) the frequency in which it should be reviewed
- The Risk Assessment identifies three areas of risk to Eyam Parish Council. These are categorised as follows; Premises and Facilities, Finance and Governance.

### Responsibility for Risk Management

- Eyam Parish Council recognises that it is the responsibility of the Clerk, Councillors and staff to take responsibility and consideration for identifying risk whilst carrying out their duties.
- This policy, the approach to risk management and the Risk Assessment are to be reviewed annually and approved by Eyam Parish Council.
- Eyam Parish Council is responsible for ensuring that this policy is adhered to.
- As an employer, Eyam Parish Council is responsible for managing health and safety to prevent harm or injury to staff, Councillors, volunteers, service users and the public on Council premises. The Parish Council's Health and Safety Policy sets out the arrangements that are in place to manage risks to everybody's health and safety.

## Risk Assessment Matrix

The below table shows the colour-coded matrix used to provide a visual indication of risk level within the Risk Assessment.

The horizontal rows illustrate the impact of the risk on the Council, its services and/or people. The vertical columns illustrate the likelihood of that risk occurring.

Each risk is scored 1-5 on it's level of impact and likelihood - with 1 having a low impact or likelihood and 5 having a high impact or likelihood.

Each score is multiplied together to give a total Risk Rating. These range from very low (score of 1) to extreme (score of 25).

Green represents a lower risk, yellow for medium risk, and red for higher risk.

**Risk Assessment Matrix**

Risk score impact	1 Negligible	<b>1</b> Very low	<b>2</b> Very low	<b>3</b> Low	<b>4</b> Low	<b>5</b> Medium
